## INFORMATIONS ABOUT COMPANY

Leader Pool was established with very professional engineers to provide the best solution when it comes to water technology offering technical support to make sure our customer received suitable solution for their needed water solution.

Our company is the partner for Emaux water technology in Hong Kong which manufacture perfect and modern equipment, with after-sales service and accuracy appointments read more.

Simply, we work with our Experience team to offer the best solution and customers' satisfaction. Quality standards Service integrity is essential along with the best price for our customers.

## VISION:

“Our Vision is to transform water leisure into a completely safe, green and healthy lifestyle. Our Commitment for a green planet, following best practices in water treatment and energy-saving equipment’s usage”.

## MISSION:

“To deliver and perform for our customers the highest level of quality products and services at fair market competitive prices and ensure the longevity of our company through repeat and referral business achieved by customer satisfaction in all areas including timeliness, attention to detail and service-minded attitudes at the highest levels of professionalism, integrity and honesty”.

## PARTNERS-

## EMAUX:

Emaux is a recognized global manufacturer that meets and surpasses the expectations of customers with best-in-class products and services. With quality at the heart of everything we do, we offer specialized products to swimming pools, spas, aquatic centres, water parks, aquaculture, public aquariums, water features and water treatment projects. Headquartered in Hong Kong, Emaux enjoys a truly global network with offices in Europe and China.

For over 35 years, we have been actively engaged in key water projects worldwide and worked closely with industrial consultants, developers, and engineers alike.

## PAHLEN:

Pahlén is a genuine Swedish company with 50 years experience of manufacture of quality products for swimming pools. We offer equipment for small private pools as well as large public facilities. The products are made of bronze, acid-proof stainless steel, titanium and thermoplastic, first-rate quality materials, a guarantee for an outstanding lifetime and reliability.

## OUR PROPOSITIONS

01

To set the industry benchmark with remarkable products and exceptional customer service.

To maintain the quality of our products through stringently tested design and premium materials.

02

03

To realize added value in the production and a high degree of automation through mass and series production.

To maintain and strengthen our global leadership in the R&D, manufacturing, and distribution of advanced solutions for water treatment and water leisure.

04

## OUR NETWORK

Our strong team of over 500 professionals has helped Emaux cater to the changing needs of our customers on six continents and stand out with our offerings, and excel with the powerful synergy.

# OUR EXPERTISE

Our strength in the following aspects is the key to our success.

## Product R&D

Our experienced R&D team proactively pursues breakthroughs in product innovation and OEM production leveraging know-how in mechanics, electricity, electronics, hydraulics, and plumbing.

## Manufacturing

The automated manufacturing process employs the most advanced technologies in mould making, plastic blow moulding, plastic injection, fibreglass production, electronic controls, and assembly.

## Turnkey Project

Flexible one-stop solutions are provided to meet every need for water treatment and water leisure.

## Sales & Marketing

The automated manufacturing process employs the most advanced technologies in mould making, plastic blow moulding, plastic injection, fibreglass production, electronic controls, and assembly.

## Distribution

Flexible one-stop solutions are provided to meet every need for water treatment and water leisure.

Life Support System

## QUALITY ASSURANCE

As the industry leader, we promise not to compromise on quality and to ensure the optimal performance of our solutions in the most demanding environment. Our production facility is ISO9001 certified,

and the most stringent international standards have been met for individual products, including UL, ETL and CSA (Canada and the U.S), TUV-GS and RoHS (Europe), SAA and C-Tick (Australia and New Zealand), CCC (China), and SASO (Saudi Arabia). Rigorous quality control processes are also in place to deliver consistent quality.

## PRODUCTS HIGHLIGHTS

### Green products

Variable speed pumps and LED lighting are energy efficient and durable, benefiting both the environment and our customers.

### Automation systems

The automated pool control systems bring convenience and cost-effectiveness, saving the trouble of operation and management.

### Turnkey products

The versatile products enable instant and easy application, putting your mind at ease.

### Sustainable water treatment solutions with modular systems

The plug-and-play system in an integrated trough or the skid-mounted or containerized water treatment system is ready for use upon simple installation, offering ultimate convenience and consistent performance.

# Electric Heater

Heats the pool water easily and effectively

**Made in Sweden**

# OUR PROJECTS

## Compact 3-18kW

Made of titanium/Nic-Tech or EN 1.4404 acid proof stainless steel/Incoloy 825. Supplied with thermostat, overheating cut out, a flow switch or pressure switch.

## Aqua compact 3-18kW

Made of thermoplastic with heating element of Incoloy 825 or titanium. Supplied with thermostat, overheating cut out, flow switch.

## Aqua spa 1.5-3.0kW

Made of thermoplastic with heating element of Incoloy 825. A small, compact heater for spa pools and small swimming pools. Adjustable thermostat, overheating cut out and flow switch are standard.

## Aqua air 1.5kW

Made of acid proof stainless steel EN 1.4404. Supplied as standard with a thermostat and overheating cut out.

## Aqua HL 3-15kW

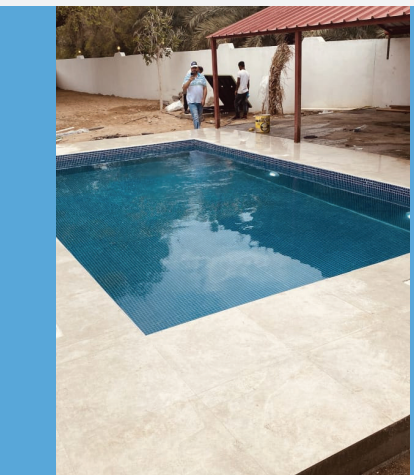

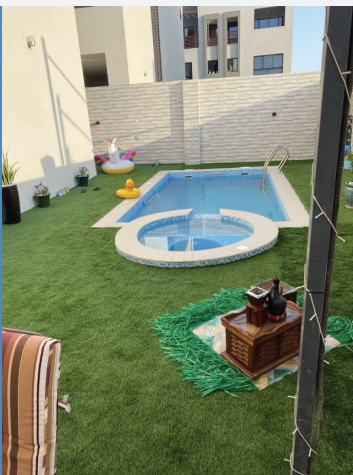

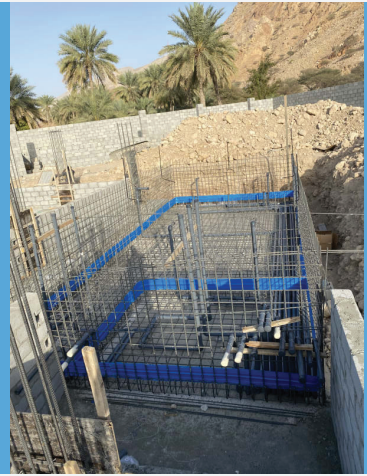

Made of thermoplastic with heating element of Incoloy 825 or titanium. Electric swimming pool heater features digital control and electronic thermostat. Built-in overheating cut out and flow switch are standard.

## MidiHeat 18-72kW

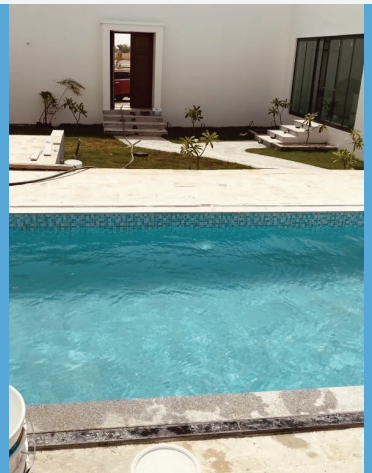

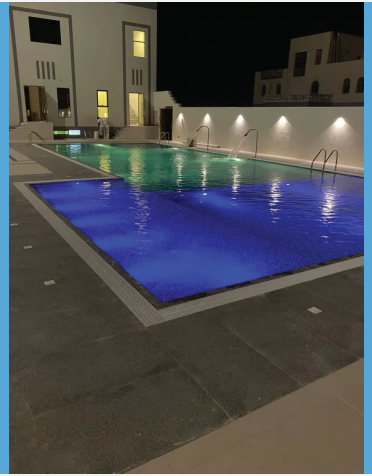

MidiHeat is manufactured from materials of the highest quality. With digital or analogue temperature control. Effective heater for larger swimming pools. Overheating cut out and flow switch are standard.
